COLD STORAGE DOORS - FREEZERS, COOLERS, WALK-INS

Cascade 2000

Built with a design that balances durability, economy and appearance. The ultimate in insulated swinging and sliding doors - Perfect for cold storage walk-ins, warehouses, processing & distribution facilities. You can depend on us for a design that guarantees ease of installation and trouble free operation.

- Compact, efficient design that requires less side, head, & depth clearance than most competitive doors.
- Corrosion resistant construction.
- Standard cladding material is 26 guage stucco galvanized steel.
- .032 stucco aluminum, prepaint white or FRP available in 4 colors
- Panels are formed in place with class 1 urethane foam.
- Cooler door panels are 3.5" thick R-27.
- Freezer door panels are 3.5" R-27 or 5" thick R-39.
- Freezer doors panels have heater cables on all 4 edges. Eliminating the need for a heated floor sill in most applications.
- Available in single slide, bi-parting, swinging and sectional overhead door models.
- Doors can be manually or power operated.

Rigidized Swinging	Single Sliding Doors	Bi-Parting Sliding Doors	Sectional Overhead Doors
<p>Manual rigidized swing cooler and freezer doors are available on door sizes up to 10' x 10'. Common applications include walk-in coolers and freezers in a variety of applications. Choose from single swing or double swing for your size requirement.</p> <ul style="list-style-type: none"> • Doors are prehung on 3-sided frame. • Custom made for your exact opening size. • Floor sills available for freezer applications. • Emergency release standard • Options available include heated windows, double frames & headers. 	<p>Standard single sliding doors are available on door sizes up to 10' wide x 12' tall. Common applications include medium density walk-thru traffic and pallet jack or lift truck traffic in freezers, coolers or warehouses.</p> <ul style="list-style-type: none"> • Single sliding doors are available in both manual and electrically powered models with your choice of right or left operation. • Header and side frames are easily installed and include easily replaced gaskets that fit into a extruded PVC track. • The overhead track featuring horizontal travel is designed to force the door tight against the gaskets for a secure seal. 	<p>Bi-parting doors can fit a large range of door sizes up to 10' wide x 12' tall. Typical applications include high traffic areas in large food processing plants, busy interior doorways in cold-storage facilities and exterior dock doors where heavy lift truck, pallet jack or walk-thru traffic exists.</p> <ul style="list-style-type: none"> • Powered doors feature high-speed parting action. Manual doors can be parted in any order to allow easy personel pass-through. • Even large bi-parting manual doors roll easily, thanks to lubricated rollers on a true horizontal track. • A heavy duty track, roller and hanger bar is available on large doorway installations. 	<p>Sectional overhead doors can be specified for doors up to 10 feet wide x 12 feet tall. Seals between sectional panels provide the same insulating characteristics as our solid doors. Use in loading docks, aiseways, obstructed areas or wherever directional slide clearance and ceiling height is limited.</p> <ul style="list-style-type: none"> • Heavy duty galvanized steel track is pre-mounted to the side frames for easy installation. • Doors use a heavy duty torsion spring lifting system rated for 20,000 cycles. Longer life springs are optional. • Standard powered models feature two pull cord switches and a pneumatic safety edge on the bottom. • Freezer models include heat cables at all outer edges and between sections.

How to determine offset for Hinges and Latches

Measure the distance the door face is above the jamb on side where the hinge is mounted

COLD STORAGE DOORS - LATCHES

58 LATCH

This revolutionary safety latch features a radial tongue which rolls securely into a closed position. Combine this easy-operating latch with an inside release handle to provide necessary employee protection.
Material: High pressure die-cast zinc Drilled and countersunk for 1/4" (6.0mm) screws.
58L-light, 3 lbs. (1.4kg) spring pressure.

Model No.	Description	Price/ea
0058L05021	Body Assm. w/light spring*	\$75.19
0059005001	Strike Assm. 1/8"-1/4"*	\$28.32
0059005002	Strike Assm. 3/4"-1 1/2"*	\$28.00
0059005003	Strike Assm. 1 3/4"-2 1/2"*	\$37.50

*denotes polished chrome finish

56 LATCH

SafeGuard™ latches offer an extra margin of employee safety with ultimate protection against entrapment in walk-in refrigerators and freezers. Specifically designed for the industry trend to lighter weight doors, this compact latch delivers remarkable ease of operation combined with Kason quality and durability.

Absolute Safety Inside release opens the door even when latch is locked-padlocked, cylinder-locked, or both!

Specifications

Material: High pressure die-cast zinc and strike housing, malleable iron handle Drilled and countersunk for 1/4" (6.0mm) screws

Easy Positive Action minimum pressure or pull releases the 56 from outside or inside for easy door opening. Latch pulls into positive airtight closure with little effort.

Pilfer-Proof foolproof and pilfer-proof when padlocked or cylinder-locked, the 56 latch tongue cannot be forced to release the latch.

Model No.	Description	Price/ea
0056L05020	Body Assm. w/light spring*	\$118.00
0056L05002	Strike Assm. Flush*	\$43.00
0056L05003	Strike Assm. 3/4"-1 1/2"*	\$43.00
0056L05005	Strike Assm. 1 3/4"-2 1/2"*	\$56.00

*denotes polished chrome finish

55 LATCH

No other latch can match the rugged mechanical features that make this the industry benchmark.

Completely equipped with a Surface-mounted, paddle-style inside release lever, the 55 easy-action latch releases from the outside or inside with minimum pressure or pull. our patented, micro-adjustable strike ensures exact door alignment. Each 55 series latch comes complete with model 483 inside release for safety.

Specifications

Material: High pressure die cast zinc body and strike housing, malleable iron handle; cold rolled steel inside release paddle assembly.

Drilled and countersunk for 1/4" (6.0 mm) screws. Plunger rod for inside release handle fits 6 in. door unless thickness is specified. Latch available with light or extra light spring. Specify as follows.

SSXL Latch with light spring
SSXXL Latch with extra light spring.

Model No.	Description	Price/ea
0055000020	Latch Complete CHR Flush - 3/16**	\$336.00
0055000024	Latch Complete CHR 3/4" - 1-1/8**	\$332.00
0055000028	Latch Complete CHR 1-1/8" - 1-5/8**	\$328.00
0055000032	Latch Complete CHR 1-3/8" - 1-7/8**	\$325.00
0055000076	Latch Body Only*	\$262.00
0055000104	Strike Only CHR Flush - 3/16**	\$127.50
0055000108	Strike Only CHR 1-1/8" - 1-5/8**	\$127.50
