Sectional Door Replacement Hardware

New
STAINLESS STEEL

SURVIVOR™ Replacement Hinges

Built to survive a doors worst nightmare!!

Tough enough to handle any corrosive environment, Survivor™ hardware is manufactured with tough, rust-proof stainless steel for maximum life in harshest corrosive environments.

Universal design allows for inclusion on any new door system or as a service or repair replacement.

A MUST FOR ANY WASHDOWN OR CORROSIVE AREA!

ORIGINAL MAGNUM Rollers

A must for high moisture/high cycle applications

Innovative Design, advanced engineering and superior materials make Magnum™ garage door rollers the product to complement any door package. Magnum rollers are tougher, quieter, maintenance free and have a higher cycle life than any other

roller on the market.

Magnum™ rollers feature a sealed, high cycle precision bearing which requires no lubrication and seals out problem debris allowing longer service life.

Applications

- High Moisture Areas • High Cycle Areas
- Dirty Areas • Quiet Areas

Features:

- Precision Bearings • Plated Raceways
- High Density Polyethylene Tires • Shielded Tire
- 304 Stainless Steel Stem • Stainless Steel Collar

2009-3

SECTIONAL DOOR HARDWARE - TORSION SPRINGS

American Garage Door Supply inventories a large selection of torsion springs for service repair and retrofit as well as constructing your new sectional or rolling steel garage door.

Select from our Oil-tempered, Galvanized or Stainless Steel wire to give your system maximum life. Most torsion springs can be upgraded to 25,000, 50,000 or 100,000 cycles for additional life.

OIL-TEMPERED TORSION SPRINGS

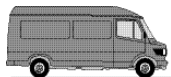

Standard cycle life is 12,000 cycles. Also available in higher cycle lives. Please specify 12,000, 25,000, 50,000 or 100,000.

Part #	Price
SPO	\$3.50/lb

Special Requirements?

If you don't see what you require in wire size or etc. GIVE US A CALL and we will try to meet your needs.

**Measure twice
All springs are
NON-RETURNABLE!!**

RUSH DELIVERY SERVICE AVAILABLE

TORSION SPRINGS For Corrosion Areas

Choose from our hot-dipped galvanized wire for standard corrosion protection or upgrade to 302 series stainless steel wire for complete rust-free dependability.

Longer Lasting

Choose up to 100,000 cycle for more service time and less replacement

Clean

Hot dipped, zinc galvanized or stainless steel reduces ugly drip down associated with high moisture areas

Variety

Same-day Shipment on hundreds of sizes. 2", 2-5/8", 3-3/4" 5-1/4" 6" diameters available.

Corrosion Resistant

Hot dipped, zinc galvanized or stainless steel reduces rust and corrosion

Great for high moisture areas!

Part #	Description	Price/Lb
SPS	Stainless Steel Torsion Springs	\$12.50
SPG	Galvanized Torsion Springs	\$3.50

When ordering furnish the following information:

- Winding:** Right Hand Wound or Left Hand Wound?
(See "winding" chart below)
- Wire Size:** Measure 10 or 20 coils to nearest 1/16" and refer to "Spring Wire Chart"
(Example: 10 coils = 2 5/8" or 20 Coils= 5-1/4" for .262 Wire)
- Inside Diameter:** Measure the inside of spring to nearest 1/16". (refer to "I.D. Chart") I.D.'s not listed on chart probably use 1-3/4", 2-5/8", 3-3/4", 5-1/4", or 6" I.D.'s. These are usually identifiable by numbers found on the spring fittings, such as ".175" for 1-3/4" I.D., ".200" for 2" I.D., etc.
- Length:** Measure overall length of spring, or provide total number of coils in unwound length of spring.

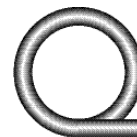

OR

- Door Size W x L**
- Door Manufacturer**
- Door Weight**
- Drum #**
- Track Configuration**

Assembled springs with cones available. Add \$3.00 + Cone Prices For winding cones SEE PAGE 18
